INDONESIA INNOVATION SUMMIT & EXHIBITION

WHERE INDONESIA'S INNOVATION ECOSYSTEM COMES TOGETHER

Indonesia does not lack innovation. Across laboratories, universities, startups, industries and communities, discoveries are being made, technologies are being developed, prototypes are being tested, and solutions are being created every day. The opportunity now is to connect them—to the industries that need them, the capital that can accelerate them, the partners that can scale them, and the markets where they can create real impact.

IISE 2026 Indonesia Innovation Summit & Expo is where those connections come to life. Bringing together research, technology, industry, government, capital, global partners and society, IISE creates one powerful platform where scientists meet industry, inventors meet investors, startups meet capital, technology meets real-world challenges, and global innovation meets Indonesian opportunity.

More than an exhibition, IISE is designed as an Innovation Festival and business platform combining a 9,600 sqm exhibition, Summit & Conference, Innovation Marketplace, business matching, live demonstrations, breakthrough experiences, and international technology showcases. Here, innovation is not simply displayed. It is discovered. Experienced. Discussed. Demonstrated. Funded. Piloted. Licensed. Adopted. And taken further.

For exhibitors, partners and participating countries, IISE is an opportunity to do more than be seen. It is a platform to find customers, meet industry partners, engage investors, explore licensing and commercialization, launch collaborations, enter new markets, and turn innovation into opportunity. Because the real value of innovation is not where it begins but how far it can go.

From lab to life.
From research to industry.
From prototype to market.
From knowledge to prosperity.
IISE 2026 — where innovation meets opportunity

WHO WILL YOU MEET AT IISE?

IISE targets all stake holders within Indonesia's innovation ecosystem.

GOVERNMENT

- Ministries/Agencies
- Local Governments
